

San Diego Uptown Sunrise Rotary The Rotary Club that thinks Big!

Presidents Message

8 April 2007

Greetings All

At this time of year many of us are celebrating either Passover or Easter. It is the time of year where we plant our seeds, seeds of hopes, dreams wishes and desires. As my year as president winds down one of my dreams is for our club to continue to grow, not only in numbers because we can always use a few more friendly faces but also in strength and understanding. We are a group of individuals that come together every week to celebrate a common desire to do good. Sometimes we do that well and every so often we find ourselves getting overwhelmed. I know I do. And so I am reminded we also need to plant seeds of balance. In our quest to make a difference we must remember that by maintaining balance in our own lives we will be more available to others and will also be better able to enjoy what we are doing.

I hope you take a moment this spring to notice what it is that you need in your life right now and then take a moment to plant those seeds and watch them grow.

Together we will continue to grow and contribute to. We are all leaders, every one of us.

Together, we will ...Lead The Way.

Rotary. Humanity in Motion
Blessings,
Susie Silvestri
