

## How the District Community Services Team can help YOUR club

1. Provide a forum for Clubs to discuss ideas for community projects, fundraisers, and planning of projects.
2. Provide tools for new Club Community Service Chairs to plan, implement, and evaluate effective service projects.
3. Provide tools to perform effective community assessments to assist in developing community projects.
4. Keep the District web pages for Community Service up to date and pertinent.
5. Work with the District Governor to develop best practices for utilization of District Grants under the Future Visions Plan.

For the most current information:
